PROFESSIONAL SUMMARY

Enthusiastic Electronics and Communication Engineering graduate with internship experience in Python and Full-Stack Development. Skilled in Python, HTML, CSS, JavaScript, and MySQL with hands-on experience building web applications and real-time projects. Strong problem-solving and analytical skills with interest in software development. Seeking an entry-level Software Developer role to contribute to innovative technology solutions.

EDUCATION

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering
(Madanapalle Institute of Technology and Science, Madanapalle | CGPA: 9.0/10 | 2023- 2026)
Diploma – Electronics and Communication Engineering
(Government Polytechnic Kalikiri , Kalikiri | CGPA:9.4/10 | 2020-2023)
Secondary School(10th class)
(Z.P High School Somala, Somala | Percentage:96% | 2015-2020)

EXPERIENCE

Python Developer Intern | Valid Profile December 2025 – April 2026 Remote, India (ongoing)

- Designed and developed a dynamic school website for Amarajyothi Public School using Python and relevant Technologies
- Collaborated with the team to debug and enhance functionality, improving usability and performance.

Python Intern | Internzlearn September 2025 – October 2025 Remote, India

- Developed a Snake Game in Python featuring movement control, collision detection, and score tracking
- Hands-on experience in Python programming, project development, and game logic

Fullstack Intern| Pythonlife March 2025 - June 2025 Remote, India

- Completed Full Stack Development Internship at PythonLife, focusing on core programming and web development concepts
- Learned frontend technologies such as HTML, CSS, and JavaScript for building basic web interfaces

SKILLS

- **Programming:** Python (Pandas, NumPy, Matplotlib), SQL (MySQL), JavaScript (Basics),React.js(Basics), HTML, CSS
- **Tools & Platforms:** Jupyter Notebook, VS Code, Pycharm, Git, GitHub
- **Interpersonal Skills:** Effective Communication and Public Speaking , Critical Thinking, Team leadership
- **Languages:** Telugu, English
- **NPTEL Certification** : python, Research Methodology, Learning Analytical tools, Computer Networks and Internet protocols
- **Other skills :** IETE volunteer , Event Organizer

PROJECTS

AMARAJYOTHI PUBLIC SCHOOL MANAGEMENT WEBSITE View Cms

Technologies: HTML, CSS, JavaScript, React.js, Python, PHP, XAMP, MySQL

- Developed a responsive school website during internship at Valid profile and Developed a responsive school management website.
- Built interactive UI and implemented a secure CMS login with role-based access control for admins and staff.
- Integrated MySQL database for efficient data storage and retrieval
- Performed testing and debugging to ensure smooth website functionality

VALID PROFILE – Job portal Website (in progress) View

Technologies: Html, Css, JavaScript, Mysql,React.js

- Contributed to the development of a job portal platform connecting job seekers and recruiters
- Designed and implemented responsive user interfaces for job listings and candidate profiles

SNAKE GAME

Technologies: Python, Pygame Library Github

- Developed a Snake Game using Python and the Pygame library, implementing features such as start screen, game over screen, score tracking, and high-score storage using file handling.
- Implemented game mechanics such as snake movement, keyboard controls, food generation, and collision detection to ensure smooth gameplay

FAKE OFFER LETTER DETECTION Github

- Developed a Fake Offer Letter Detection system using Python to identify fraudulent job offers by analyzing suspicious patterns and inconsistencies.
- Designed and tested the system with sample datasets to ensure reliability and help prevent job-related fraud
